Helsinki, Finland

PERSONAL SUMMARY

I am an engineering student with an interest in problem-solving, content creation and startups. I am a quick learner when it comes to new systems and enjoy figuring out how things work on my own rather than waiting for answers. During my free time I like to exercise and explore new hobbies.

PROJECTS

Air Gesture Interface

A real-time hand-controlled object playground built with Python, MediaPipe Hand Landmarker, and OpenCV.

Smart File Organizer

A dependency-free Python CLI that sorts a folder into categories, previews exact destinations, and handles filename collisions without overwriting existing files.

EDUCATION

Metropolia University of Applied Sciences
